#### 8.0 Placement Guidelines:

NMIMS is a premier University of the country and the Business School is in existence for over three decades. Our alumni occupy senior positions in leading companies across sectors. Over the years NMIMS has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. All these laurels and recognitions would have been incomplete without the support of the corporate world.

It is also a great place to recruit potential young managers and business leaders. Leading companies across sectors consider our students for recruitments/ internships.

NMIMS has a cordial relationship with the corporate world and many companies have supported us even during tough times. We would like to continue this mutually symbiotic relationship. Hence, it is expected that students understand this sentiment and behave responsibly at all times. Any untoward incident will jeopardize this relationship and have serious repercussions for placements and for the future.

NMIMS as a premier University of higher learning and the corporate world expects students to display high standards of knowledge, capability and excellence. Recruiters also look for serious candidates who are clear about their long term plans, the sector they want to be and profile they want to undertake.

Placement assistance is offered to students of various programs across Schools. It is the prerogative of the Schools to decide, which of the programs this service should be offered.

The Placement Office of School facilitates the process of placements – internship & recruitment by creating an interface between recruiters and students. Efforts are made to market the programs with their merits with an endeavour to get companies to offer internships/recruit students. The selection process specified by the company is followed. The PlaceCom - Placement Committee of students are actively involved in the placement activities – contacting/visiting companies located in metros & major cities for placement presentations and also coordinate various activities during the placement processes.

The Placement Office devises placement guidelines that are in the larger interest of the School and students, in consultation with students and faculty.

Students are expected to maintain decorum and abide by the guidelines during placement processes. In the event of non-conformance to the placement guidelines, the School reserves the right to initiate corrective action.

The Placement process typically involves –

- Batch Preparation
- Pre Placement Talks
- Internships/projects
- Final Placements

#### 8.1 **Batch Preparation:**

- 8.1.1 The Comprehensive Batch Preparation Program is to enhance the suitability of candidates.
  - 8.1.1.1 Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile etc.
  - 8.1.1.2 Interaction with seniors who have undergone internships in companies.
  - 8.1.1.3 Assigning seniors or alumni as mentors to guide students.
  - 8.1.1.4 Mock interviews with alumni/corporates to get a direct feedback from people in relevant industries.
  - 8.1.1.5 Guest talks and workshops on various topics from corporates.
  - 8.1.1.6 Resume building as per guidelines
  - 8.1.1.7 Soft skills training etc.
- 8.1.2 Prior to the commencement of the selection process it is expected that students should be having a fair idea about their interest, sector, and specialisation or at least have some long term vision of where they want to be and should direct their efforts accordingly. A bit of clarity will help students land a good internship/job.
- 8.1.3 Hence students should do a thorough research about the company, the business, the sector, other players in the sector, the financials, etc. and be prepared with a background and fact file prior to the process. Also some additional information the number of interns/recruits in the past, whether the company has a PPO policy, the roles offered, the experience of seniors who interned with the company etc. will be of help.
- 8.1.4 The Placement Office also involves companies in a number of Campus Engagement activities contests, projects, workshops, seminars, guest talks etc. that would benefit a larger number of students and also help in promoting the excellent quality of the batch.
- 8.1.5 Based on the guidelines, students will have to prepare their resume that would encapsulate info about academics, work experience, internship, co-curricular activities, extracurricular activities, projects, awards, achievements, hobbies etc.

#### 8.2 **Pre Placement Talk – PPT**

PPT's are a medium wherein the company officials disseminate information regarding the company, the profile, the compensation etc. and clarify the queries of students. The company officials invest time and effort to disseminate info and the interactive session will make them feel visiting our campus was worth it. Hence students are requested to participate and ask relevant questions.

#### 8.3 Internships/Projects

- 8.3.1 The Placement Office makes all efforts to reach out for internships across varied sectors, companies and profiles. Based on ones interests and capabilities one should seek internships. Choosing the correct company for internships and performing up to the mark is of utmost importance.
- 8.3.2 The Internships are not only a window to the corporate world but also a relationship building tool for NMIMS. It allows the companies to have a look at the talent at NMIMS, thereby strengthening Final Placements.
- 8.3.3 Internships are an integral part of the curriculum for securing the degree. It is a great learning platform for our students and goes a long way in shaping the learning obtained in the class room. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.

| School    | Programs                        | Remarks  |
|-----------|---------------------------------|--|
| Economics | B.Sc. Economics M.Sc. Economics | Internships after the I & II year during summer vacation Internships after the I year during Summer vacation |

- 8.3.4 The project is expected to build on the theoretical learning with practical experience and help students to identify the gaps in their learning which they can attempt to fill in. They could also discover areas of interest and future career options.
- 8.3.5 Interactions during the internships both with other interns as well as employees help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning and in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- 8.3.6 Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have structured internship process which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students leading to declaration of PPO's/PPI's. NMIMS too encourages candidates to work towards such offers that are based on internship performance.
- 8.3.7 Pre Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies of their choice and should put in all efforts to convert the internship into an Offer. Thus, the seriousness of this cannot be overstated.
- 8.3.8 While feedback from the company is sought, the internship is also evaluated by School that could involve faculty guide monitoring the performance; periodic report submissions, evaluations, Viva Voce etc.

#### 8.4 Final Placements

- 8.4.1 Leading companies across sectors aspire to recruit students of NMIMS. Each company has its own set of characteristics or qualities that they look for in a candidate. Hence, the company devises the eligibility criteria and selection process accordingly.
- 8.4.2 The process of selection starts with inviting applications based on the eligibility, profile, project, stipend/compensation details shared by the company. The applications of applicants are then sent to companies. Students are required to check their emails/Placement Portal/ blackboard etc. regularly for information updates.
- 8.4.3 Every effort will be made to facilitate the placement process. However it is the effort of the student that gets him/her selected for the job. Not getting selected for internships or during final placements in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- 8.4.4 Companies could have one or multiple rounds for selection case analysis, group discussion, group exercises, interviews etc. Reasons like location, family issues etc. should not be constraints to students. They are expected to be mobile and have the capability to adjust and adapt and respond to emergent situations successfully.
- 8.4.5 Students who wish to drop out of the placement process are expected to formally notify the Placement Office vide the 'Opted Out Form' mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own giving with the names of such companies and details. The reason being, to iron out any hitches that may crop up later as the Placement Office approaches many companies and would like to continue the cordial relationship with them.
  - Each of the Schools will be sharing to the batch, guidelines related to Resume, PPT, Internships, PPO's/PPI's, Final Placements, etc. and it is expected that students follow the same. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are free to approach the Placement Office for any queries or guidance.

Students (as applicable school wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding selection of courses, help in identification of resources needed by all students. Do meet your faculty mentor regularly as per their convenience and availability.

#### 11.2 Psychologist and a Counsellor:

- i. "I cannot concentrate or focus nor can I sleep, at times I get so scared that I go blank in my exams!"
- ii. "Since the time he left me I cannot put my attention to anything I will not be able to live anymore.......
  can't bear it if he is not in my life!"
- iii. "I have lost my confidence I often compare myself with others and feel I am not as good as them"
- iv. Nobody understands what I am going through....people become judgemental instead of understanding and supporting, .Whom to share it with?
- v. Who will be able to really help?

Have you had such incidents where you are not able to cope up with the situation?

Or have reacted very harshly and then later realised that reacting to the situation was not really not needed and in the process you damaged the understanding you had with your friends and family? But you just do not know what went wrong then? Do not understand what triggered?

As normal social human beings at any given time in life we could go through difficult times and are confused as well as not able to share our difficulties with others fearing their judging.at such times we recommend, personal Counselling.

Just as we visit the doctor or for the sprain but in case it turns into a fracture we may have to visit an orthopaedic surgeon for an operation of the broken bone /fracture similarly for few mild issues we visit a psychologist and a counsellor and for the same unattended long term issue which may have become chronic we may be asked to take an psychiatric intervention as medicines would also help in creating relaxation and balance. Education alone does not allow us to progress unless we learn to manage our emotions and remove the myths and misconcepts of visiting a counsellor (learnt in the past) instead relearn some more helpful and progressive facts.

Personal counselling is very important at every step in life even at the corporate levels. There could be a situation in our lives when we are not able to cope with, example of a simple case given above. Such situations affect our subconscious mind deeply which interferes our present conscious life and could not allow us to lead a healthy life. Consciously, we do not realise the implications of our behaviour on others but it eventually could affect our events and relations in daily life at home, in class, or at work. When the past emotional situations not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings which we need to be aware of like, "I have no one to whom I can share my personal issues, am I happy? Am I feeling lonely?, having sleepless nights?", such thoughts could again lead to further anxiety and can release harmful hormones; which could affect our performance, decision making, logical thinking, studies, relationships, career, and gradually affect our physiological health like hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, pelvic pain, impotence, frigidity, dermatitis, and ulcers

A counsellor is a non-judgemental friend who understands, ensures privacy and confidentiality of the client and counsels you by giving choices so that you make the right decision. Counselling is based on realistic, structured and research based study.

NMIMS does care about the students and thus have appointed a full time 'Clinical Psychologist and a counsellor', MEETA SHAH, available on the 8th floor, Cabin:-West-855, NMIMS University, at the Mumbai campus for all the students.

#### 12.3 **Re-admission rules:**

A student can seek re-admission in the next academic year, in case he / she fails to fulfill the criteria mentioned under passing standards in SRB. For this purpose, he / she has to pay 25% of the total fee prevalent at that time for that programme.

Student can take re-admission in the said year of the programme only once. He/she can take re-admission in different years as long as total period of the programme does not exceed the validity period of that programme. For example, for MBA the validity period is 4 years and for MBA Tech. it is 7 years, so a student can take re-admission maximum two times but in different progressive years. Admission to the subsequent years is subject to maximum duration permissible for completion of the programme (in years). Such admissions will be at the students' own risk of non-completion of the programme during the maximum permissible duration (in years).

| Sr no. | Duration of the programme (in years) | Maximum duration permissible for completion the programme (in years) |
|--------|--------------------------------------|--|
| 1      | 2 years                              | 4 years  |
| 2      | 3 years                              | 5 years  |
| 3      | 4 years                              | 6 years  |
| 4      | 5 years                              | 7 years  |
| 5      | 6 years                              | 8 years  |

If the student takes re-admission in a particular academic year and is not promoted again, either as per the passing standards of the respective programme or any other reason as per academic rules, then the student will not be given second chance for re-admission. However such a student can re-appear at the subsequent examinations of the said year without keeping the terms (i.e. re-admission) by taking a drop and only appearing for the examinations.

For school specific details programme wise, kindly refer Part II of SRB.

#### 20.0 International Student Exchange Program Policy

#### 20.1 **Introduction**

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program in order to provide a cross cultural exposure and a global perspective to the students apart from classroom teaching. The Exchange Program has become increasingly popular with the students and every year students get a chance to spend Semester/Trimesters at a partner Institute. With the dedicated International Linkages department in place, efforts are underway to have larger number of students to avail of this unique opportunity in every school. It is strongly recommended for all students to have international exposure in terms of academics and cultural immersion. However, due to some limitations, the students who do not visit these foreign institutes as part of the exchange program benefit through interaction with the overseas students who visit us.

#### 20.2 **PREAMBLE**

In a world that is increasingly interdependent, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. This involves creation of a multi ethnic environment in our programs on our campus. This can happen only when students from different countries and communities join NMIMS programs.

This policy on internalization seeks to clarify the philosophy behind the NMIMS Deemed-to-be-University's Internationalization program and sets out the eligibility of students to apply for an international exchange program. It also sets out the selection criteria and guidelines for assessing applications and the expectations from the students going for the exchange program.

This policy also lays out the facilities for international students in our programs and also the expectations from them. We expect our foreign students to conduct themselves at par with other Indian students.

To aggressively pursue the internalization agenda, NMIMS Schools have signed MOUs with leading Universities and Schools as given below:

### 21.0 Safety Guide for Students on Floods, Fire and Earthquakes Introduction

Mumbai is vulnerable to various natural and manmade disasters such as fire and industrial accidents, floods, chemical (transport and handling), biological, and nuclear hazards, earthquake, cyclones, landslides, bomb blasts, terrorism, riots and tidal surge due to its geographic conditions, industrial growth, increasing population density and squatter settlements have increased Mumbai's vulnerability to disasters.

The safety measures for a few disasters such as 1) Floods, 2) Earthquakes and 3) Fire in Mumbai are highlighted briefly in this document.

#### 21.1 **Floods:**

Floods in Mumbai are attributable to simultaneous occurrence of rainfall and high tides. If the rainfall is in excess of 200 mm in a day (24 hrs), floods can occur anytime irrespective of tides. However, if there is moderate rainfall but the tide is in excess of 4.50 meters at the same time, the city of Mumbai is likely to get flooded.

Precautions to be taken in case of Floods<sup>1</sup> are given in the Table 1 below.

#### 21.2 Earthquake

Mumbai is in the 'Moderate Seismic Zone III which can experience quakes up to 6.5 on the Richter scale.

Seismologists say that the major fault lines in Mumbai run along the Thane creek, Panvel creek and the Amba River, all three intersecting at Uran. A fault line also runs from Malabar Hill to Worli passing through Cumballa Hill.

Precautions to be taken in case of earthquakes are displayed in Table 2 below:

## Ragging / Women Grievance Redressal Cell / Sexual Harassment Internal Complaints Committee / Student Grievance Redressal Cell – Ombudsman

21.4 **Ragging**: Ragging of fellow students in any form is strictly prohibited inside and outside the campus. Any student/s found guilty of ragging and/or abetting ragging, whether actively or passively, or being a part of a conspiracy to promote ragging, is liable to be punished as per the rules. Ragging often ends up in sexual or physical harassment for the victim. The institute maintains a zero tolerance policy towards ragging. All issues in this regard will be dealt with utmost urgency and stringent action will be taken against those involved. To help students, Committees have been formed at School level and University level.

#### 27. B.Sc. Economics Programme

#### **Objective**

The setting up of the School of Economics was in recognition of the fact that in the changing world order, Economics is emerging as a crucial Science. The innovative undergraduate B.Sc. Economics program seeks to fill a niche in the teaching-learning of contemporary Economics in the city of Mumbai. Sarla Anil Modi School of Economics offers a three year integrated graduate program- B.Sc. Economics. The course offers education that is rooted in basic sciences, pure theory and yet which is practical, contemporary and global.

The program, with its innovative pedagogy, contemporary curriculum that incorporates the latest developments in Economics, along with the enhancement of soft skills and a blend of theory with practice, seeks to provide holistic education.

B.Sc. Economics is designed to challenge the mind, stimulate intellectual growth and make college life an exciting journey. The emphasis is on the overall development of the student, not only in academics, but also in co-curricular activities. Students would also gain practical exposure through summer training.

#### The unique pedagogic innovations

The choice of pedagogic methods at the School of Economics is designed to keep the teaching learning process student-centric. Non-classroom learning is an effective method where students seek and acquire knowledge outside the classroom rather than having it 'imparted'. Over and above classroom teaching, a lot of emphasis is placed on group learning.

- Group learning: Academic groups of 5-6 students would be encouraged to work in a group on an issue; where students learn to research, discuss their findings with peers, negotiate their point of view and arrive at a conclusion.
- Games & Experiments: Learning by playing.
- Guest speakers and Panel Discussions: Interaction with industry experts.
- Workshops: Full day workshops on a wide range of academic and non-academic subjects.
- Film & Drama Viewing socially relevant films & drama to build social sensitivity.
- Research projects Primary and secondary research projects on socio-economic issues.
- Summer Internship Summer training at the end of each year for a month
- Independent studies Self learning through research in the final year

#### Co- Curricular activities

The emphasis is on the overall development of the student, not only in academics, but also in co-curricular activities. We believe that in order to have a well-rounded personality and a balanced growth of intellect, co-curricular activities should be an integral part of education.

- Association and Clubs: Students will be encouraged to form and head various associations and clubs to cater to diverse
  interests. Managing these clubs will not only give a platform to nurture the students' budding talent, but will also help
  them to learn organizational skills and administration.
- Sports: Students will be actively encouraged to participate in sports and play individual or team games. This will help to promote a healthier and more disciplined lifestyle and foster team-spirit among the students.
- Social Work: This is a forum which will help the students touch the lives of others and in the process; make a difference to their own. Students will help the underprivileged and take on projects on a continuing basis. This will help students become more socially conscious and responsible.

#### 28. GENERAL ACADEMIC GUIDELINES for B.Sc. Economics

The three years integrated program B. Sc. Economics consists of two Semesters in each year, adding up to a six semester program. Each Semester consists of core subjects in Economics, allied subjects and some skill enhancers such as effective communication, IT skill, creative writing, leadership training and Ecode.

#### **Classroom sessions:**

- 26 to 32 contact lectures per week.
- 45-60 sessions per semester for the core subjects.
- 45 sessions per semester for allied subjects
- 30 sessions per semester for skill enhancers.
- A research project in the final year

Students are required to have a minimum of 80% attendance in every subject in each Semester.

#### The credit structure

The following are the three categories of subjects and the assigned credits to each

Category A- Core Economics Subjects 3-4 credits
 Category B-Allied Subjects 3 credits
 Category C- Skill enhancers 2 credits

#### **Evaluation**

#### There are 2 components of evaluation

Continuous evaluation: 50%
End Term Exam 50%

#### The student must pass both these components to be declared successful.

(Please refer to passing rules on page no 41 for more detailed explanation).

The Grade Point Average and Cumulative Grade Point Average would be awarded to the student at the end of each Semester. The final degree would be awarded on the basis of performance of all the three years combined.

#### Feedback Mechanism:

Sarla Anil Modi School of Economics, NMIMS will have a formal feedback at the end of each Semester.

#### 29. Rules Relating To Passing Standard of B.Sc. Economics

- 1. A student who has passed in all the subjects (as per the criteria laid down herein under) of Semester I and Semester II examinations of the first academic year will be promoted to the concerned programme in the second year of the programme. Likewise, a student who has passed in all the subjects of Semester III and Semester IV examinations of the second year of the programme will be promoted to the concerned programme in the third year.
- 2. A student who fails in Internal Continuous Assessment in any one subject or more will be deemed as fail in the concerned Semester and will not be allowed to take the end term examination/re-examination of that specific Academic year. The student will have to take readmission for the entire year of the programme in the subsequent academic year.
- 3. A student who has passed in the Internal Continuous Assessment but fails to pass in one or more subjects in the term end examinations in Semester I will be "allowed to keep terms" (ATKT) and will be permitted to attend lectures and appear at Semester-end examinations of Semester II. Likewise, a student who fails in one or more subjects in the term end examinations in Semester III will be "allowed to keep terms" and will be permitted to attend lectures and appear at Semester-end exams of Semester IV. This means that students will be allowed to keep terms for the first semester during the academic year, irrespective of the number of failures in the term end examination in any number of subjects of the first semester of that academic year.
- 4. Such students who failed to pass in one or more subjects in the term end examination will be allowed to appear at one reexamination in all the 'failed subjects' of both the semesters which will be held after the end of the second semester of that academic year. The said re-examination will normally commence about three weeks after the closure of the second Semester examination of that academic year. This re-examination shall be held for a particular academic year and shall be held before the start of the next academic year.
- 5. Students who remain absent for the Semester end examination/re-examination will be treated as failed in that subject in which they remained absent.
- The student shall be required to pay the prescribed fees/charges for the re-examination before the commencement of the re-examination.
- 7. In case a student fails to pass in any one or more subject/s of any of the two semesters of the particular year of the programme even after the re-examination as mentioned above he/ she shall be deemed to have failed in that academic year. He/ she will then be required to seek re-admission, as a regular student for the concerned program for that year of the programme in which he/ she has been declared failed. He/ she will also be required to pay the prescribed fees/charges at the time of seeking readmission in the concerned program as per the rules prescribed by the University for the same from time to time.
- 8. The same criteria regarding re-examination as mentioned above shall be applied to Semester III and Semester IV of the second year and for Semester V and Semester VI of the third year of the programme

#### Passing Criteria:

There are two components of evaluation

1) Internal Continuous Assessment 50%

2) Term end examination 50%

The student must pass both these components to be declared successful

#### 1) Internal Continuous Assessment

In the internal continuous assessment for each subject, a student must secure a minimum of 50% marks in order to be declared successful.

The components of the Internal Continuous Assessment along with their weightage for each subject would be given to the student by the faculty teaching the course in the course outline. Some of the components would be: quizzes/ MCQ's, Tests, Assignments, Group work and Projects.

There would be a minimum of 2 components of Internal Continuous Assessment in each subject.

Non-completion of assignments for Internal Continuous Assessment

A student shall be permitted to appear for the semester-end examination provided he/she has submitted all the projects/assignments etc. required for internal assessment of that subject within the stipulated time and has passed the Internal Continuous Assessment according to the passing Criteria as stated above. In case, he/she fails to submit the same before the stipulated time, and he/she fails in the Internal Continuous Assessment, he/she will not be allowed to appear for the semester-end examination and will be declared failed. He/she will then have to seek readmission in that year of the programme or quit the programme subject to re-admission rules.

#### 2) Semester-End Examination

A student must secure a minimum of 50% of the total maximum marks allotted to every subject in each of the trimester-end examinations, in order to be declared as successful in that subject.

#### Non-fulfilment of Passing Criteria

- 1. If a student gets less than the prescribed 50% marks allotted to the internal continuous assessment in a particular subject, the student shall be debarred from appearing at the semester-end examination in the said subject. However, such a student will be given only one chance to improve his/ her performance to secure the necessary prescribed minimum marks in the internal continuous assessment by way of re-doing all the required projects/ assignments, etc. for that semester as decided by the respective subject-teachers, before the given semester-end examination of that academic year.(Thus a failure in the Internal Continuous Assessment will imply that the student/s shall not be allowed to keep terms in the next semester.) The modalities of the internal continuous assessment shall be jointly decided by the subject teacher and the Dean/ in-charge of the School of Economics. It is the sole responsibility of the student to comply with the above requirement before the end of each semester. If he/ she fails to do so, he/ she shall be declared failed in that subject and therefore in that academic year and shall have to seek readmission in that year or quit the programme.
- In case a student obtains at least 50% of the total marks in a subject in the internal continuous assessment examinations, but fails in the semester-end examination of that subject, then his/her marks in the internal continuous assessment of the programme will be carried forward and shall be added to the marks obtained at the term end re-examination in that subject.
- If a student has failed under any head in any subject (i.e. 'Internal Continuous Assessment' and/or 'semester-End Examination' and/or 'aggregate'), he/ she shall be deemed to have failed in that subject.
- A student who remains absent from semester-end examination/s due to any reason in any subject shall be awarded 'F' grade in the subject/s in which he/ she has remained absent. All such students who have obtained F grade/s in any of the semester end examination will be given only one chance to appear at the semester end re-examination of those respective subject/s in which she/he has obtained F grade. Those students who fail in any of the subject/s after this one semester end re-examination chance shall have to seek readmission in that year of the programme, subject to readmission rules.
- 5 In order to receive the degree, the student will have to pass in all the examinations of all the years.
- Students can take re-admission in the said year of the programme only once. He/She can take re-admission in different years as long as total period of the programme does not exceed the validity period of that programme.

| Name of the Programme | Duration of the programme (in years) | Maximum duration permissible for    |
|-----------------------|--------------------------------------|-------------------------------------|
|                       |                                      | completion the programme (in years) |
| B.Sc. Economics       | 3 years                              | 5 years                             |

#### Guidelines for calculation of letter grades

(a) FACTORIZATION: In order to ensure uniformity of evaluation and reduce variation in evaluation between different faculty members, factorization of marks would be carried out for courses wherever the number of students appearing for the examination in the said course is more than 30 and number of faculties evaluating the answer books in the course concerned are more than one.

#### The formula for carrying out such factorization would be as under:

- (i) The Average marks given by a faculty for a course (internal continuous assessment + trimester end examination) for a group of students shall be calculated for each course for a batch.
  - Average marks awarded by a faculty to a group of students (one or more division) for a particular course = Sum of total marks awarded to all students assessed by the faculty for a course divided by number of students in the said group / batch.
- (ii) Grand Average Marks given by all faculty members who evaluated answer books (internal continuous assessment + trimester end examination) shall be calculated for each course for a batch.
  - Grand Average marks= Total marks awarded by all faculty members to all students for a particular subject divided by number of students in the said cohort
- (iii) 'Factor Score' for each faculty, using Individual faculty average and grand average obtained above would be calculated.
  - Factor Score= Grand average divided by Individual faculty average.
- (iv) Factorization will be done by multiplying the factor score of the respective faculty with the aggregate marks assigned by the said faculty to the individual student whose answer books were evaluated by him/her for each course.
- (v) If the marks obtained by the student after factorization are in decimal, the marks will be rounded to the next higher integer.
- (vi) Gracing and grading will be applied as per present scheme on the factorized marks computed as above
- (b) **DOUBLE EVALUATION:** Wherever for a course the number of students appearing for the examination is less than 31, factorization will not be applicable irrespective of the number of faculties evaluating the answer books of the course concerned. In such cases, where factorization is not applied, double evaluation or 100% moderation will be carried out. The first evaluation will be performed by the course teacher of the course concerned and the second evaluation of all the answer books or 100% moderation will be carried out by an external course expert selected from the panel approved as per the norms prescribed and in force at that moment. The simple average of the marks allotted by the Internal Course Teacher and the External Subject Expert will be treated as the marks allotted to the student in the course concerned. If the average mark obtained by the student is in decimal, the same shall be converted to the next higher integer. This average mark will be considered for awarding the grace marks if eligible and grade and declaring the result of the student.
- (c) **DOUBLE EVALUATION:** Wherever the number of examiners evaluating answer books of a course is only one, irrespective of the number of students appearing for the examination in the course concerned, factorization will not be applicable and double evaluation or 100% moderation will be carried out. The first evaluation will be performed by the

course teacher of the course concerned and the second evaluation of all the answer books or 100% moderation will be carried out by an external course expert selected from the panel approved as per the norms prescribed and in force at that moment. The simple average of the marks allotted by the Internal Course Teacher and the External Subject Expert will be treated as the marks allotted to the student in the course concerned. If the average mark obtained by the student is in decimal, the same shall be converted to the next higher integer. This average mark will be considered for awarding the grace marks if eligible and grade and declaring the result of the student. There shall be no factorization of marks in such a case.

After following the above evaluation processes, the factorized / average marks will be rounded to the next integer. The process of awarding 'grace marks' as per rules already approved by Academic Council shall be followed. Thereafter, grading will be carried out as per the present practice.

#### Method of calculation of letter grades:

For the calculation of grades, the following guidelines are observed-

- 1. Highest marks/ factorized marks scored by a student (derived as above) as the case may be for a course / subject will be taken into account for the batch/group (in case of electives).
- 2. Difference between the maximum marks/ factorized marks as the case may be and pass marks would be calculated.
- 3. The said difference will be equally divided into slabs of nine letter grades (i.e. A+, A, and A-, B+, B and B- and C+, C and C-.
- 4. Grading will be done on the basis of marks/ factorized marks as the case may be obtained by a student in each course / subject which will be fitted into the above slabs of letter grades.
- 5. "F" grade will be assigned to students;
  - (a) Who have obtained less than 50% marks out of the maximum marks allocated to the respective subject / course for the internal continuous assessment.
  - (b) Who have obtained less than 50% marks out of the maximum marks allocated to the respective subject / course for the term end examination.
  - (c) Who have obtained marks less than minimum passing marks out of aggregate (Internal Continuous Assessment + Term end examination).

The process of factorization and the grading pattern will be implemented irrespective of the year of admission of the students concerned with effect from the Academic Year 2016-17.

(b) **FACTORIZATION**: In order to ensure uniformity of evaluation and reduce variation in evaluation between different faculty members, factorization of marks would be carried out for courses wherever the number of students appearing for the examination in the said course is more than 30 and number of faculties evaluating the answer books in the course concerned are more than one.

#### The formula for carrying out such factorization would be as under:

- (j) The Average marks given by a faculty for a course (internal continuous assessment + trimester end examination) for a group of students shall be calculated for each course for a batch.
  - Average marks awarded by a faculty to a group of students (one or more division) for a particular course = Sum of total marks awarded to all students assessed by the faculty for a course divided by number of students in the said group / batch.
- (ii) Grand Average Marks given by all faculty members who evaluated answer books (internal continuous assessment + trimester end examination) shall be calculated for each course for a batch.
  - Grand Average marks= Total marks awarded by all faculty members to all students for a particular subject divided by number of students in the said cohort
- (vii) 'Factor Score' for each faculty, using Individual faculty average and grand average obtained above would be calculated.
   Factor Score= Grand average divided by Individual faculty average.
- (viii) Factorization will be done by multiplying the factor score of the respective faculty with the aggregate marks assigned by the said faculty to the individual student whose answer books were evaluated by him/her for each course.
- (ix) If the marks obtained by the student after factorization are in decimal, the marks will be rounded to the next higher integer.
- (x) Gracing and grading will be applied as per present scheme on the factorized marks computed as above
- (b) **DOUBLE EVALUATION:** Wherever for a course the number of students appearing for the examination is less than 31, factorization will not be applicable irrespective of the number of faculties evaluating the answer books of the course concerned. In such cases, where factorization is not applied, double evaluation or 100% moderation will be carried out. The first evaluation will be performed by the course teacher of the course concerned and the second evaluation of all the answer books or 100% moderation will be carried out by an external course expert selected from the panel approved as per the norms prescribed and in force at that moment. The simple average of the marks allotted by the Internal Course Teacher and the External Subject Expert will be treated as the marks allotted to the student in the course concerned. If the average mark obtained by the student is in decimal, the same shall be converted to the next higher integer. This average mark will be considered for awarding the grace marks if eligible and grade and declaring the result of the student.
- (c) **DOUBLE EVALUATION:** Wherever the number of examiners evaluating answer books of a course is only one, irrespective of the number of students appearing for the examination in the course concerned, factorization will not be applicable and double evaluation or 100% moderation will be carried out. The first evaluation will be performed by the course teacher of the course concerned and the second evaluation of all the answer books or 100% moderation will be

carried out by an external course expert selected from the panel approved as per the norms prescribed and in force at that moment. The simple average of the marks allotted by the Internal Course Teacher and the External Subject Expert will be treated as the marks allotted to the student in the course concerned. If the average mark obtained by the student is in decimal, the same shall be converted to the next higher integer. This average mark will be considered for awarding the grace marks if eligible and grade and declaring the result of the student. There shall be no factorization of marks in such a case.

After following the above evaluation processes, the factorized / average marks will be rounded to the next integer. The process of awarding 'grace marks' as per rules already approved by Academic Council shall be followed. Thereafter, grading will be carried out as per the present practice.

#### Method of calculation of letter grades:

For the calculation of grades, the following guidelines are observed-

- 1. Highest marks/ factorized marks scored by a student (derived as above) as the case may be for a course / subject will be taken into account for the batch/group (in case of electives).
- 2. Difference between the maximum marks/ factorized marks as the case may be and pass marks would be calculated.
- 3. The said difference will be equally divided into slabs of nine letter grades (i.e. A+, A, and A-, B+, B and B- and C+, C and C-.
- 4. Grading will be done on the basis of marks/ factorized marks as the case may be obtained by a student in each course / subject which will be fitted into the above slabs of letter grades.
- 5. "F" grade will be assigned to students;
  - (a) Who have obtained less than 50% marks out of the maximum marks allocated to the respective subject / course for the internal continuous assessment.
  - (b) Who have obtained less than 50% marks out of the maximum marks allocated to the respective subject / course for the term end examination.
  - (c) Who have obtained marks less than minimum passing marks out of aggregate (Internal Continuous Assessment + Term end examination).

The process of factorization and the grading pattern will be implemented irrespective of the year of admission of the students concerned with effect from the Academic Year 2016-17.
