- 14.2 Online Feedback through the Students Portal is taken using a questionnaire preferably in the last session of every course in each trimester/Semester. This feedback is compiled and statistics are placed before each faculty member by the end of the trimester/Semester.
 - 14.2.1 All students should get involved in this mechanism seriously as it truly helps the NMIMS improve the quality of services and teaching provided.
 - 14.2.2 These are open-ended questions in which students can reflect learning and teaching aspects of the course.
 - 14.2.3 NMIMS uses feedback to improve the teaching-learning process proactively.
 - 14.2.4 While sharing the feedback to the faculty members, the student's identity is kept confidential.

15 Mentoring Programme / 'Psychologist and a Counsellor':

15.1 Mentoring Programme:

Students (as applicable school wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A counsellor is a non-judgmental friend who understands, ensures privacy and confidentiality and counsels you by giving choices so that you make the right decision. Counselling is a realistic, structured, and research-based therapy. Managing emotions is vital to ensure all-rounded progress in life. We need to break the old walls of myths and misconceptions to learn something new. Visiting a counsellor helps us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As normal human beings at any given time in life, we could go through challenging times and have no one to share or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence I feel worthless /hopeless; no one loves me. I don't want to live anymore"
- iv. "I feel nobody understands what I am going through..." (People become judgemental instead of understanding and supporting)
- v. "I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the counsellor sometimes when we are unable to clear our emotional challenges. The counsellor needs to check how deep your wound is, and usually, you are helped by putting first aid protection (counseling) through therapeutic counseling. Sometimes the injury may have been too deep /chronic, or your trauma could also need psychiatric intervention and give appropriate help.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships and career. This continued stress can gradually affect our body and physiological health causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, pelvic pain, impotence, frigidity, dermatitis and ulcers.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the blanket and then take up unhealthy habits like smoking, drinking, and substance abuse to avoid sleepless nights. We hope to feel better, which lasts only for a short term. On the other hand, creating long term damage may lead to unhealthy dependency.

NMIMS wants to ensure the holistic development of the students. Therefore, have appointed a team of psychologists and a counsellor.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters such as 1) Floods, 2) Earthquakes and 3) Fire are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
<ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels, and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check out for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination or any other important work on that day and try to adjust it on some other day Keep locally available equipment such as ropes, batteries, radio, plastic bottles and cans handy during the rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water and so on 	<ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious. Avoid saving valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches or valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advanced information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters by foot if you can avoid it Never wander around a flooded area Drink clean water 	<ul style="list-style-type: none"> Stay away from downed power lines, and report them to Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during the rainy season Watch out for loose flooring, holes and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First protect yourself and then help others.

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
<ul style="list-style-type: none"> In hostel or at home keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder is secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table or even under a bed. <p>If you are on the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall or detached buildings, electricity wires, slopes and walls, which are liable to collapse. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm and obey any instructions you hear after you come out Turn off the water, gas and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint etc.). Avoid places where there are loose electric wires and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and

Provide them with first aid. Do not move seriously injured people unless they are in danger. <p>If you are outside</p> <ul style="list-style-type: none"> • If you know that people have been buried, tell the rescue teams. Do not rush and do not worsen the situation of injured persons or your own situation. • Do not re-enter badly damaged buildings and do not go near damaged structures. • Do not walk around the streets to see what has happened. Keep clear of the streets to enable rescue vehicles to pass. • Keep away from beaches and low banks of rivers. Huge waves may sweep in. • Keep updating yourself with the latest information on earthquakes through radio or T. V.

21.3 Fire: Precautions to be taken in case of fire are given in Table 3 below:

Before Fire	During Fire	After Fire
<ul style="list-style-type: none"> • Identify the fire hazards and where fires might start, e.g. laboratories, storerooms, kitchens and other such places. • Identify all the exit routes of the Institute. • Check the adequacy of the firefighting apparatus and its maintenance. 	<ul style="list-style-type: none"> • Do not panic. Shout for help. • Do not run. • Do not waste time collecting valuables. • Inform the fire brigade about the fire and alert neighbors. • If possible, use a fire extinguisher. • Do not take shelter in the toilet. • Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. • Do not use the lift to escape. • Use the nearest means of escape and the staircase available. • Exit ground level instead of the terrace. • Report about your safe escape and any other information to the University authorities, fire brigade or police present at the site. <p><i>If trapped or stranded:</i></p> <ul style="list-style-type: none"> • Stay close to the floor level. • Cover the gaps of the door with any piece of cloth available. • Do not jump out of the building. • Signal or shout for help. • Stop, drop and roll on the ground and cover with a blanket; pour water on the body • Dial 101 or 22620 5301 for fire brigade • Give the fire officer a detailed address, the nature of the incident and the telephone number from which you are calling. Preferably, use a landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. • Wait for the Fire Brigade to arrive and co-operate with the firefighters. 	<ul style="list-style-type: none"> • Don't re-enter or permit anyone to enter the building, unless the fire officials have permitted to enter.

2. Placement Guidelines (wherever applicable):

NMIMS is a premier University of the country and the B-school is in existence for over four decades. Over the years it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. All these laurels and recognitions would have been incomplete without the support of the corporate world. Our alumni occupy senior positions in leading companies across sectors.

NMIMS is also a great place to recruit potential young managers and business leaders. Leading companies across sectors consider our students for recruitments/ internships. As we have cordial relations with the corporate world, many companies have supported us even during tough times. We would like to continue this mutually symbiotic relationship. Hence, it is expected that students understand this sentiment and behave responsibly at all times. Any untoward incident will jeopardize this association and have serious repercussions for placements and for the future.

The corporate world expects students to display high standards of professional knowledge, capability and excellence. Recruiters also look for candidates who are clear about their long-term plans, the sector they want to be and profile they want to undertake.

Placement assistance is offered to students of various programs across Schools & Campuses. The Placement Office facilitates the process of placements – internship & recruitment by creating an interface between recruiters and students. Efforts are made to market the programs with their merits with an endeavour to get companies to offer internships/recruit students. The selection process specified by the company is followed. The PlaceCom - Placement Committee of students is actively involved in the placement activities – contacting/visiting companies located in metros & major cities for placement presentations and also coordinate various activities during the placement processes.

The Placement Office devises placement guidelines that are in the larger interest of the School and students, in consultation with students and faculty.

Students are expected to maintain decorum and abide by the guidelines during placement processes. In the event of non-conformance to the placement guidelines, the School reserves the right to initiate corrective action.

The COVID 19 pandemic has had far-reaching consequences leading to an altogether new world of working for all leading to WFH, virtual internships and virtual selection process.

The Placement process typically involves –

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

2.1 Batch Preparation:

The Comprehensive Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- a. Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile etc.
- b. Interaction with seniors who have undergone internships in companies.
- c. Assigning seniors or alumni as mentors to guide students.
- d. Mock interviews with alumni/corporates to get a direct feedback from people in relevant industries.
- e. Guest talks and workshops on various topics from corporates.
- f. Resume building as per guidelines
- g. Soft skills training etc.

2.1.1 Prior to the commencement of the selection process it is expected that students should be having a fair idea

about their interest, sector and specialization or at least have some long term vision of where they want to be and should direct their efforts accordingly. A bit of clarity will help students land a good internship/job.

- 2.1.2 Hence students should do a thorough research about the company, the business, the sector, other players in the sector, the financials etc. and be prepared with a background and fact file prior to the process. Also some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the roles offered, the experience of seniors who interned with the company etc. will be of help.
- 2.1.3 The Placement Office also involves companies in a number of Campus Engagement activities – contests, projects, workshops, seminars, guest talks etc. that would benefit a larger number of students and also help in promoting the excellent quality of the batch.
- 2.1.4 Based on the guidelines, students will have to prepare their resume that would encapsulate info about academics, work experience, internship, co-curricular activities, extracurricular activities, projects, awards, achievements, hobbies etc.

2.2 Pre-Placement Talk – PPT

PPT's are a medium wherein the company officials disseminate information regarding the company, the profile, the compensation etc. and clarify the queries of students. The company officials invest time and effort to disseminate info and the interactive session will make them feel visiting our campus was worth it. Hence students are requested to participate and ask relevant questions.

2.3 Internships/Projects

- 2.3.2 The Placement Office makes all efforts to reach out for internships across varied sectors, companies and profiles. Based on ones' interests and capabilities one should seek internships. Choosing the correct company for internships and performing up to the mark is of utmost importance.
- 2.3.3 The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows the companies to have a look at the talent at NMIMS, thereby strengthening Final Placements.
- 2.3.4 Internships are an integral part of the curriculum for securing the degree. It is a great learning platform for our students and goes a long way in shaping the learning obtained in the classroom. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- 2.3.5 The project is expected to build on the theoretical learning with practical experience and help students to identify the gaps in their learning, which they can attempt to fill in. They could also discover areas of interest and future career options.
- 2.3.6 Interactions during the internships both with other interns as well as with employees help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning and in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- 2.3.7 Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have structured internship process which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students leading to declaration of PPO's/PPI's. NMIMS too encourages candidates to work towards such offers that are based on internship performance.
- 2.3.8 Pre Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies of their choice and should put in all efforts to convert the internship into an Offer. Thus, the seriousness of this cannot be overstated.
- 2.3.9 While feedback from the company is sought, the internship is also evaluated by School that could involve faculty guide monitoring the performance; periodic report submissions, evaluations, Viva Voce etc.

2.4 Final Placements

- 2.4.2 Leading companies across sectors aspire to recruit students of NMIMS. Each company has its own set of characteristics or qualities that they look for in a candidate. Hence, the company devises the eligibility criteria and selection process accordingly.
- 2.4.3 The process of selection starts with inviting applications based on the eligibility, profile, project, stipend/compensation details shared by the company. The applications of applicants are then sent to companies. Students are required to check their emails/Placement Portal/Student Portal, etc. regularly for information updates.

- 2.4.4 Every effort will be made to facilitate the placement process. However, it is the effort of the student that gets him/her selected for the job. Not being selected for internships or during final placements in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- 2.4.5 Companies could have one or multiple rounds for selection – case analysis, group discussion, group exercises, interviews etc. Reasons like location, family issues etc. should not be constraints to students. They are expected to be mobile and have the capability to adjust and adapt and respond to emergent situations successfully.
- 2.4.6 Students who wish to drop out of the placement process are expected to formally notify the Placement Office vide the 'Opted Out Form' mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own giving with the names of such companies and details. The reason being, to iron out any hitches that may crop up later as the Placement Office approaches many companies and would like to continue the cordial relationship with them.

Each of the Schools will be sharing to the batch, guidelines related to Resume, PPT, Internships, PPO's/PPI's, Final Placements etc. and it is expected that students follow the same. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are free to approach the Placement Office for any queries or guidance.

3 Guidelines for International Student Exchange Program(Wherever applicable)

3.1 Introduction

The unique pedagogic innovations

The choice of pedagogic methods at the School of Economics is designed to keep the teaching learning process student-centric. Non-classroom learning is an effective method where students seek and acquire knowledge outside the classroom rather than having it 'imparted'. Over and above classroom teaching, a lot of emphasis is placed on group learning.

- Group learning: Academic groups of 5-6 students would be encouraged to work in a group on an issue; where students learn to research, discuss their findings with peers, negotiate their point of view and arrive at a conclusion.
- Games & Experiments: Learning by playing.
- Guest speakers and Panel Discussions: Interaction with industry experts.
- Workshops: Full day workshops on a wide range of academic and non-academic subjects.
- Film & Drama - Viewing socially relevant films & drama to build social sensitivity.

- Research projects – Primary and secondary research projects on socio-economic issues.
- Summer Internship – Summer training at the end of each year for a month
- Independent studies - Self learning through research in the final year

Co- Curricular activities

The emphasis is on the overall development of the student, not only in academics, but also in co-curricular activities. We believe that in order to have a well-rounded personality and a balanced growth of intellect, co-curricular activities should be an integral part of education.

- Association and Clubs: Students will be encouraged to form and head various associations and clubs to cater to diverse interests. Managing these clubs will not only give a platform to nurture the students' budding talent, but will also help them to learn organizational skills and administration.
- Sports: Students will be actively encouraged to participate in sports and play individual or team games. This will help to promote a healthier and more disciplined lifestyle and foster team spirit among the students.
- Social Work: This is a forum, which will help the students, touch the lives of others and in the process; make a difference to their own. Students will help the underprivileged and take on projects on a continuing basis. This will help students become more socially conscious and responsible.

Non-classroom learning is an effective method where students seek and acquire knowledge outside the classroom rather than having it 'imparted'. Over and above classroom teaching, a lot of emphasis is placed on group learning.

- Group learning: Academic groups of 5-6 students would be encouraged to work in a group on an issue; where students learn to research, discuss their findings with peers, negotiate their point of view and arrive at a conclusion.
- Guest speakers and Panel Discussions: Interaction with industry experts.
- Workshops: Full day workshops on a wide range of academic and non-academic subjects.
- Film & Drama - Viewing socially relevant films & drama to build social sensitivity.
- Research projects – Primary and secondary research projects on socio-economic issues.
- Summer Internship – Summer training at the end of each year for a month
- Independent studies - Self learning through research Paper, Capstone Project & Dissertation in the final year

Co- Curricular activities

The emphasis is on the overall development of the student, not only in academics, but also in co-curricular activities. We believe that in order to have a well-rounded personality and a balanced growth of intellect, co-curricular activities should be an integral part of education.

- Association and Clubs: Students will be encouraged to form and head various associations and clubs to cater to diverse interests. Managing these clubs will not only give a platform to nurture the students' budding talent, but will also help them to learn organizational skills and administration.
- Sports: Students will be actively encouraged to participate in sports and play individual or team games. This will help to promote a healthier and more disciplined lifestyle and foster team spirit among the students.

- Social Work: This is a forum, which will help the students, touch the lives of others and in the process; make a difference to their own. Students will help the underprivileged and take on projects on a continuing basis. This will help students become more socially conscious and responsible.
