Hello,

Thank you for preparing the minutes in such details. I approve them.

I have two minor suggestions: PhD. Course: Econometrics

Module 5.

1. Please bring Linear Probability Model in the next line as shown below:

Binary Choice Models

- Linear Probability Model
- Probit Model
- Logit Model

2. Selection Model should be at the same level as Truncated Model (i.e. it should not be indented). Please shift one Tab to the left.

- Truncated Model
- Selection Model

Best regards,
Subrata Sarkar
